

*****NOTE:** You **must** have a Twitter page to embed a “Tweet this” button.

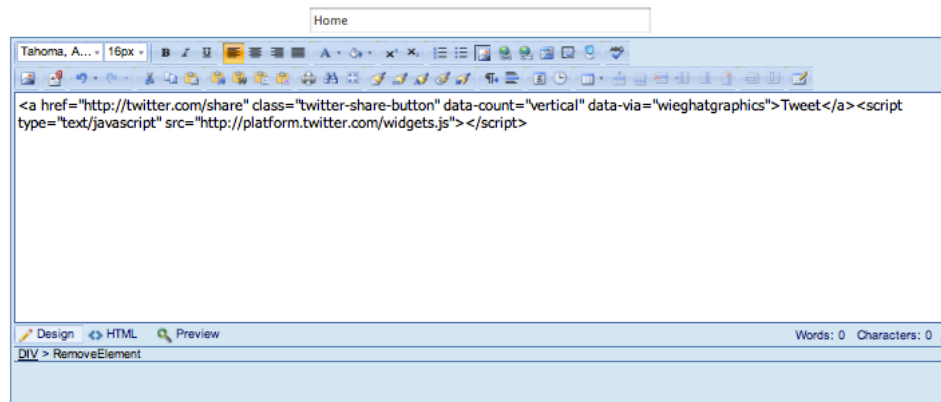

1. Open your website to the page you wish to embed your Twitter “Tweet this” button into.
2. Click [Edit Page](#)
3. Go to <http://twitter.com/about/resources/tweetbutton>

4. Follow page instructions by entering your Twitter information into the shaded blue boxes.
5. Highlight all the text in the box (as seen below in blue).

6. After making your selection, go to your website and click “edit page.”
7. Click [HTML](#) (located on the bottom banner).
8. Paste the previously-selected code into your website’s HTML “edit page” (as seen below).

9. Click [Design](#) . Your Twitter “Tweet this” button will appear in the “edit page.”
10. If needed, use correctly align your Twitter “Tweet this” button.
11. Click [Save Changes](#)
